SUMMARY

Detail-oriented **Software Engineer** with over **1.4 year of experience** in **Full Stack Web Development**, specializing in **ASP.NET Core, React, and SQL Server**. Adept at designing secure APIs, developing responsive UIs, and optimizing databases for better performance. Skilled in **end-to-end feature development, agile collaboration**, and **clean, maintainable coding practices**. Committed to delivering scalable, user-focused solutions that align with business goals.

PROFESSIONAL EXPERIENCE

Software Engineer

06/2024 - Present

Aviraj Innovations Pvt Ltd

- Designed and deployed scalable web applications using **ASP.NET Core MVC** and **Entity Framework Core**.
- Created secure **RESTful APIs** with **JWT** authentication and role-based authorization.
- Developed interactive **React** interfaces using **Redux** and reusable components for better maintainability.
- Improved **SQL Server** query performance by optimizing data access with **LINQ** and **stored procedures**.
- Collaborated in an **agile environment** with cross-functional teams to deliver complete business solutions.
- Managed source control and versioning through **Git/GitHub**, ensuring clean and traceable commits.

PROJECTS

College Administration ERP Platform

Environment: C#, ASP.NET Core MVC, Razor Pages, Entity Framework Core, LINQ, SQL Server, jQuery.

- Engineered a comprehensive **ERP platform** to streamline academic and administrative workflows.
- Implemented **JWT-based authentication** ensuring secure role-based access across the system.
- Crafted responsive **Razor Pages** with intuitive layouts for improved user interaction.
- Enhanced data handling through efficient use of **LINQ** and **stored procedures**.
- Contributed to feature delivery through active collaboration and **agile** development practices.

Retail Point of Sale (POS) System

Environment: C#, ASP.NET Core MVC, SQL Server, Entity Framework Core, React, Redux, Tailwind CSS, Thermal Printer Integration.

- Developed a full-stack **POS solution** for handling sales, billing, and inventory management.
- Created **RESTful APIs** to support real-time communication between frontend and backend.
- Integrated **thermal printer** functionality for seamless invoice generation.
- Designed a modern, responsive UI using **React** and **Tailwind CSS** for consistent usability.
- Structured the data layer with **Entity Framework Core** to improve application reliability and maintainability.

SKILLS

Programing languages

C#, HTML, CSS, JavaScript.

Libraries & Framework

.Net Core, Asp.Net Core MVC, Asp.Net Core Web Api, React, Redux, jQuery, Bootstrap, AJAX, Tailwind CSS.

Databases & ORM

Microsoft SQL Server, ADO.NET, Entity Framework Core, LINQ.

Tools & Technologies

Microsoft Visual Studio, GIT, GitHub, Postman, RESTful APIs, JSON Web Token (JWT).

Operating System

Windows 10+

Development Practices

Object-Oriented Programming (OOP), RESTful API Design, Agile (Scrum), SDLC

EDUCATION

Bachelors in Computer Engineering

Datta Meghe College of Engineering

📍 Navi Mumbai

CGPA: 8.24 / 10
