ADITYA MORE

Software Engineer

SUMMARY

Software Engineer with 1.5 years of professional experience in Full Stack development, specializing in .NET Core, ASP.NET Core MVC, React, and SQL Server. Delivered projects such as an ERP system and a Point of Sale (POS) solution, contributing to both frontend and backend by building secure APIs, responsive UIs, and efficient database operations. Skilled in Git-based version control, agile workflows, and end-to-end feature development. Known for delivering scalable and user-friendly applications by collaborating with cross-functional teams

PROFESSIONAL EXPERIENCE

Software Engineer

06/2024 - Present

Aviraj Innovations Pvt ltd

Hybrid

- Built and deployed web applications with ASP.NET Core MVC & Entity Framework Core for business automation.
- Designed and implemented RESTful APIs with authentication/authorization, ensuring secure communication.
- Created responsive UI dashboards using React, Redux, Bootstrap, and Tailwind CSS.
- Optimized SQL Server queries with LINQ and stored procedures for faster performance.
- Collaborated in an agile environment, working with developers and project leads to deliver integrated solutions.
- Used Git for version control (push, pull, commits, and code collaboration on GitHub)

Software Engineer Intern

12/2024 - 02/2025

Aviraj Innovations Pvt ltd

Remote

- Assisted in developing and improving features for internal applications.
- Collaborated with senior engineers to resolve technical issues and enhance functionality.
- Contributed to documentation and team discussions for smoother workflows.
- Gained hands-on experience in **Git (code push/pull, branches, and commits)** and **agile processes** like sprint planning and daily standups.

PROJECTS

Online College Office ERP

Environment: C#, ASP.NET Core MVC, Razor Pages, Entity Framework Core, LINQ, SQL Server, jQuery.

- Built JWT-secured APIs with role-based access to separate student, staff, and admin functions.
- Implemented student ID generation and staff record management with document upload features.
- Structured **responsive Razor Pages** using Bootstrap and jQuery for intuitive navigation.
- Enhanced database performance by combining stored procedures with LINQ queries.
- Added validation rules for form inputs (student details, staff data) to prevent incorrect entries.

Point of Sale (POS) System

Environment: C#, ASP.NET Core MVC, SQL Server, Entity Framework Core, React, Redux, Tailwind CSS, Thermal Printer Integration.

- Developed cart management, billing, and product catalogue modules for retail operations.
- Constructed admin panel with real-time sales reporting and product configuration.
- Integrated **thermal printer functionality** to generate receipts on transaction completion.
- Designed mobile-friendly UI components with React and Tailwind CSS, boosting accessibility.
- Optimized data access layer with EF Core for faster query execution.

SKILLS

Programing languages

C#, HTML, CSS, JavaScript.

Libraries & Framework

.Net Core, Asp.Net Core MVC, Asp.Net Core Web Api, React, Redux, jQuery, Bootstrap, AJAX, Tailwind CSS.

Databases & ORM

Microsoft SQL Server, Entity Framework Core, LINQ.

Tools & Technologies

Microsoft Visual Studio, GIT, GitHub, Postman, RESTful APIs, JSON Web Token (JWT).

Operating System

Windows 10+

Development Practices

Object-Oriented Programming (OOP), RESTful API Design, Agile (Scrum), SDLC

EDUCATION

Bachelors in Computer Engineering

Datta Meghe College of Engineering

Navi Mumbai

CGPA: 8.24 / 10

CERTIFICATIONS

A J.P. Morgan Software Engineering Virtual Experience

Forage

Software Engineer Certificate
